1. Nature of operations and going concern

Arizona Metals Corp. ("AMC" or the "Company") was incorporated under the Canada Business Corporations Act on June 28, 2017. The Company's head office, principal address and registered and records office is located at 66 Wellington Street West, Suite 4100, Toronto, Ontario, Canada, M5K 1B7. The Company completed its Initial Public Offering on March 6, 2018 and was classified as a Capital Pool Company ("CPC") as defined by the TSX Venture Exchange ("TSX-V").

On August 1, 2019, the Company completed a reverse take-over transaction ("RTO") with Croesus Gold Corp. ("Croesus"), which changed to Arizona Metals Holdings Corp. subsequent to RTO, wherein the Company acquired 100% of the issued and outstanding common shares of Croesus. As a result of the share exchange, Croesus was considered to have control. While the Company was the legal acquirer, the accounting acquirer was Croesus and these financial statements are consolidated and presented with Croesus as the continuing entity. Concurrent with the RTO, the Company changed its name to Arizona Metals Corp. and began trading on the TSX-V under the symbol "AMC". On August 6, 2020, the Company began trading on the OTCQB under the ticker "AZMCF" and moved to the OTCQX in January 2021. On October 13, 2022, the Company's common shares were delisted from the TSX-V upon graduation to the TSX.

AMC is a mineral exploration company based in Toronto, Ontario, focusing on the exploration and development of mineral resource properties in Arizona. At the date of these unaudited condensed interim consolidated financial statements, the Company does not have any operating mines, nor has it earned any income from production.

Although the Company has taken steps to verify title to the properties on which it is conducting its exploration activities, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, social licensing requirements, aboriginal land claims and non-compliance with regulatory and environmental requirements. The Company's property interests may also be subject to increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and restrictions, and political uncertainty.

AMC is at an early stage of exploration and as is common with many exploration companies, it raises financing for its exploration and acquisition activities in discrete tranches. The Company has current assets in excess of current liabilities of \$24,697,347 at June 30, 2025 (December 31, 2024 - \$32,834,869). For the six months ended June 30, 2025, the Company had a net loss of \$9,400,812 (six months ended June 30, 2024 - \$12,663,417), and had cash outflows from operations of \$9,327,294 (six months ended June 30, 2024 - \$10,846,352).

These unaudited condensed interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they become due. The Company believes that it will have sufficient capital to operate over the next twelve months.

Longer term, the Company may pursue opportunities to raise additional capital through equity markets; however, there can be no assurance it will be able to raise funds in the future. The ultimate ability of the Company to remain a going concern and complete exploration and development of properties, if properties are proven successful, is dependent upon successfully raising additional capital.
